

NPC[®] GATES

NPG 308

PRODUCT CATALOG

Our innovative device provides invaluable support for access control in high-security interior locations. This advanced device offers extended capabilities, adapting to diverse user needs

[FITNESSCLUB24.CO.UK](https://www.fitnessclub24.co.uk)

NPG 308

Sample Applications:

Ticket Control and Access Management

Government Institutional Security

Air and Sea Transport

Personnel Checkpoints

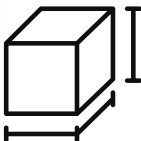

Access Control and Time Attendance

Culture and Entertainment Sector

Information:

- Gate Length: 1500 mm
- Gate Width: 120 mm
- Gate Height: 980 mm
- Passage Width: 550-900 mm
- Power Supply: 110 V / 220 V 50 / 60
- Hz 24 V power supply
- Voltage: AC (100-240)V, 50/60HZ;

Functions:

Passage Speed: 30-35 People/Min

Automatic Calibration

IŁOŚĆ CYKLI PRZED
AWARIĄ: 5 000 000 (MCBF)

Bi-Directional Operation

Entry-Exit

Panic Function

5-10 par czujników

LED Lighting

Expandable for Clients

Options

- Ability to install additional devices (turnstile counter, biometric and proximity RFID readers, coin acceptors, emergency buttons, barcode and QR code readers)
- Radio Controller (Wireless)
- Cable Controller
- LED Display
- Battery Installation Capability

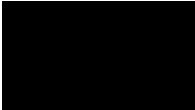

Available Finish Options:

STAINLESS STEEL POLISH RAL 304

RAL 9005 Color Finish

RAL 9003 Color Finish

RAL 6002 Color Finish

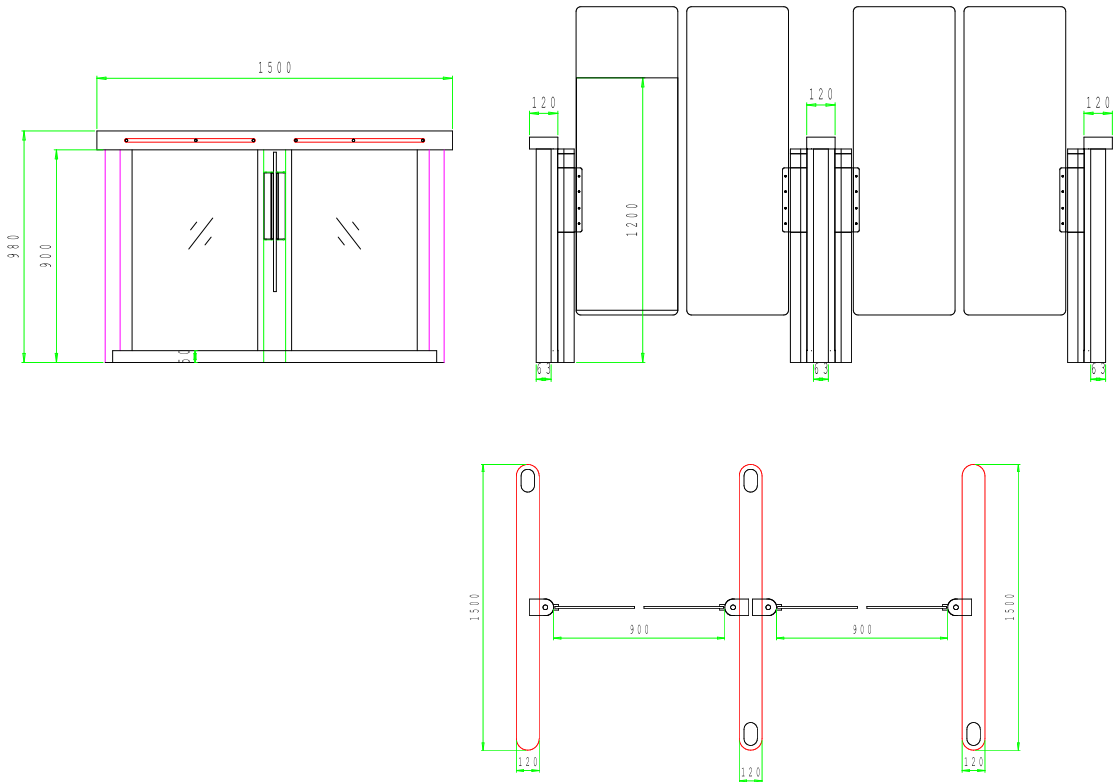

RAL 7016 Color Finish

RAL 3020 Color Finish

Gate Dimensions

NPG 315

PRODUCT CATALOG

Our innovative device provides invaluable support for access control in highly secure indoor environments. This advanced device offers extended features, adapting to the diverse needs of users.

FITNESSCLUB24.CO.UK

NPG 315

Example Applications:

Ticket Control and Access Management

Security for Government Institutions

Air and Sea Transport

Personnel Access Control Points

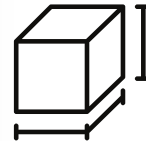

Access Control and Time Attendance

Culture and Entertainment Sector

Informacje:

- Gate Length: 219 mm
- Gate Height: 1180 mm
- Passage Width: 900 mm
- Power Supply: 110 V / 220 V
- 50 / 60 Hz, 24 V power supply Voltage: AC (100-240)V, 50/60Hz;

Features:

Passage Speed: 35 People/Min

Automatic Calibration

Number of cycles before failure: 5,000,000 (MCBF)

LOW POWER CONSUMPTION

Bidirectional Operation, Entry-Exit

Servo Drive Mechanism

Panic Function

Passage for the Disabled

LED Lighting

Expandable for the Customer

Options:

- Ability to install additional devices (turnstile counter, biometric and contactless RFID readers, coin acceptors, emergency buttons, barcode and QR code readers)
- Radio Controller (Wireless)
- Cable Controller
- LED Display
- Outdoor Installation Capability

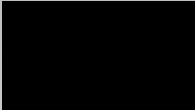

Available Finish Options:

Stainless Steel Finish RAL 304

RAL 9005 Color Finish

RAL 9003 Color Finish

RAL 6002 Color Finish

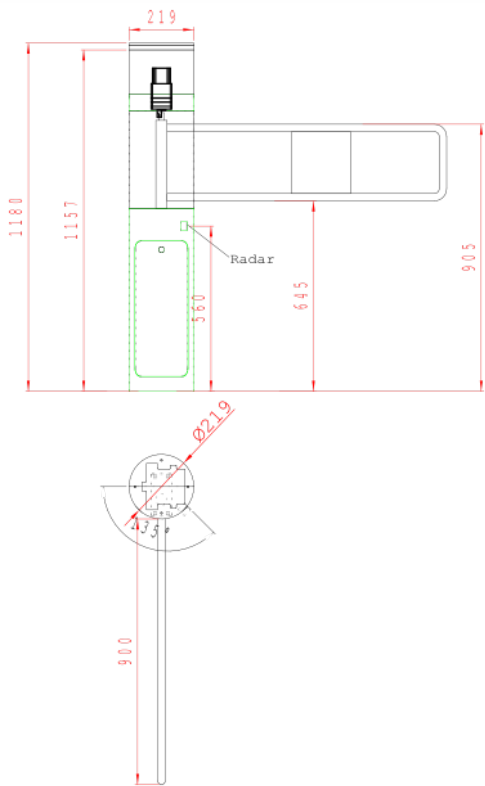

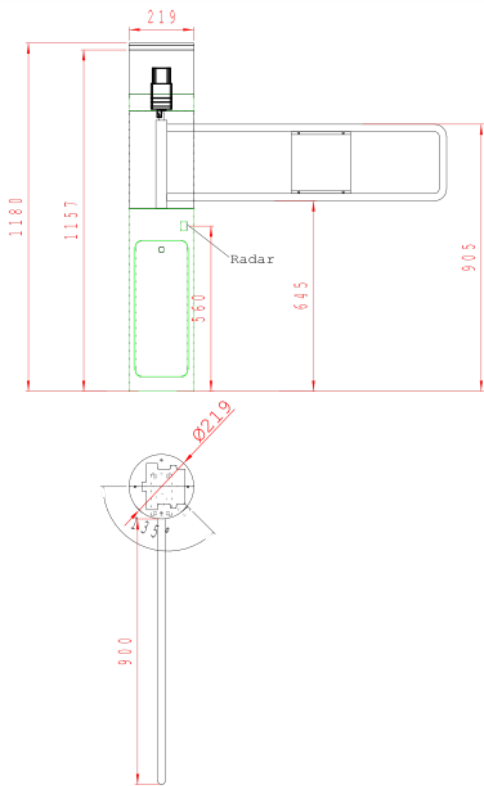

RAL 7016 Color Finish

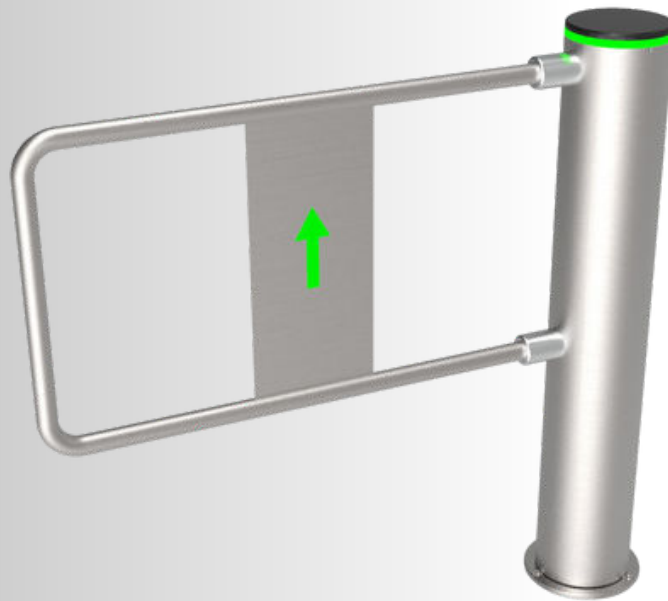

RAL 3020 Color Finish

Gate Dimensions
